Software Warranty

Key Definition

Licensor = Tim HJ Rogers (Adapt Consulting Company)

The software is provided "as is", without warranty of any kind, express or implied, including but not limited to the warranties of merchantability, fitness for a particular purpose, title and non-infringement. In no event shall the copyright holders or anyone distributing the software be liable for any damages or other liability, whether in contract, tort or otherwise, arising from, out of or in connection with the software or the use or other dealings in the software.

The Licensor makes no warranty that the Software is free of defects or is suitable for any particular purpose. In no event shall the Licensor be responsible for loss or damages arising from the installation or use of the Software, including but not limited to any indirect, punitive, special, incidental or consequential damages of any character including, without limitation, damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses. The entire risk as to the quality and performance of the Software is borne by you.

Should the Software prove defective, you and not the Licensor assume the entire cost of any service and repair.

The reason for this disclaimer is that I cannot warrant or guarantee software for every system or circumstance and the client/user/recipient is obliged to review, test and generally assert that they are satisfied before using this "live".
